GAINESVILLE BRANCH UNDER NEW MANAGEMENT.

Mr. Paul B. Emery of Alachua, well known to many of you already, has assumed the management of our Gainesville branch located at 233 W. University Avenue.

Mr. Emery is an experienced landscape man, and you may be assured that he is well qualified to advise you on your landscape problems.

Under the management of Mr. Emery, we will make every effort to give you prompt, efficient and courteous service.

Please visit our display grounds or telephone 2270 for Mr. Emery to call and give you an estimate.

PEAT

(See story on our peat on page 34 in our catalog)

This peat has not been ground, but shredded, which leaves the fine, fibrous texture available in imported peat. An excellent humus for adding to the average soil for shrubs, trees, vines, palms, annuals, perennials, etc. AZALEAS AND CAMELLIAS REQUIRE IT. New lawns will thrive with an application of peat to aid in holding moisture, holding fertilizer, and also as a home for helpful bacteria. The peat should be mixed well with the soil. This scale will help in determining the quantity needed:

cu. yd. covers 648 sq. ft. ½" deep
 cu. yd. covers 324 sq. ft. 1" deep
 cu. yd. covers 162 sq. ft. 2" deep
 cu. yd. covers 81 sq. ft. 3" deep

IRRIGATION SYSTEMS:

As soon as pipe, fittings and sprinkler heads are available, we shall be glad to furnish you an estimate for an irrigation system for your home grounds, garden plot, or groves.

AND IN THE FUTURE:

As fast as the stock is available, we will add a complete line of insecticides, fungicides, grass seed, garden tools, hand and power sprayers, power mowers, garden tractors, and other supplies and equipment. Our aim is to become a one-stop garden supply center. See us first for your needs.
